

PrimeEdge Managed IT Solutions will help fill those IT resource gaps with our portfolio of cost-effective Managed Services. Network performance, Server and Desktop management, telephone and security challenges – wherever you need help, we’re ready to provide it. And whatever level of support you opt for, rest assured that you’ll continue to make the key management decisions and retain control of your overall IT strategy.

## What if you could...

- Eliminate the burden of routine IT management
- Optimize efficiencies of your staff
- Maintain data availability for critical applications
- Enhance network security and compliance
- Manage data backup and disaster recovery

*And much more!*

## Managed IT Services at a glance

Optimize your infrastructure, control assets and costs, and improve workflows with **PrimeEdge’s MIS Edge**. **MIS Edge** provides proactive end-to-end management of your technology needs from a single trusted partner.

Industry-leading network infrastructure management and asset management capabilities form the foundation of **MIS Edge**. These powerful capabilities enable remote and secure installation, configuration, maintenance, monitoring and management of your technology environment .

### **MIS Edge Services include:**

**Assessment Services**—Gain more visibility of your current usage, uncover hidden costs and develop a business case for change.

**Financial and Procurement Services**—Realize lower total cost of ownership. From planning for and acquiring your new technology to retiring and replacing it.

**Transition and Implementation Services**—Make sure that the right equipment is installed in the appropriate location and that your end users know how to make the most of it.

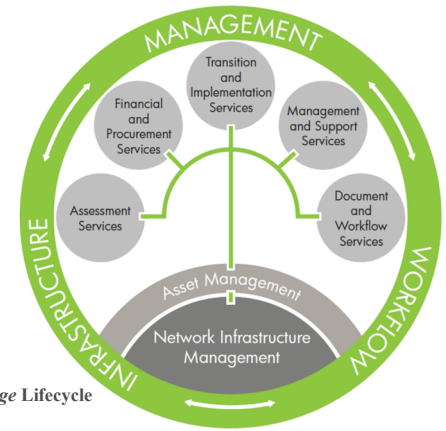

**Management and Support Services**—Enable ongoing return on investment (ROI) through fleet availability and optimization, support and supplies management and greater visibility into usage trends, capacity and expenditures.

**Document and Workflow Services**—Automate paper-intensive workflows and better manage the underlying infrastructure that supports your processes for accelerated business results.

# Why PrimeEdge?

**Complete Solutions**—With end-to-end solutions and services, PrimeEdge can work with you to identify and address your specific needs today and into the future.

**Expertise**—PrimeEdge has experience with Managed IT Services.

MIS Edge Lifecycle

PrimeEdge's Managed IT Services offer flexible IT services that enables organizations to adapt quickly to ever-evolving business and technology environments.

## MIS Edge a three-part approach

PrimeEdge works with you to assess, deploy and manage your IT environment tailored to meet your business needs, while helping you reduce costs, conserve resources and simplify the processes.

### Optimize infrastructure

PrimeEdge can help you achieve a balance between your total cost of your IT environment and your needs for user convenience and productivity.

### Manage environment

Working together, PrimeEdge can help you maintain your optimized infrastructure while improving business efficiency and tightening security.

### Improve workflow

By streamlining your processes, PrimeEdge can help you deliver a more efficient environment for capturing, managing and sharing information.

## How do you get started?

Contact your PrimeEdge representative to:

- Set up a discussion or workshop to assess your specific business needs.
- Establish a plan to implement the best solution for today and into the future.
- Identify the **MIS Edge** environment approach that can help your company save resources and money.
